TouchTone Announces its Spring MPLS Promotion
Lower Rates, Higher Commissions

Whippany, NJ (May 26, 2009) – TouchTone Communications, a full service telecommunications provider, today announced its Spring MPLS promotion. Participating channel partners can take advantage of special port pricing starting at \$300, and local loop rates as low as \$75. In addition to 100% up-front cash bonuses, residual commissions are paid on port MRCs with the option for agents to also make commissions on local loops.

“In this tough economy business customers are looking to cut costs any way that they can,” said TouchTone’s Agent Sales Manager, Steve Kaplan. “MPLS is a great solution for VPNs and multi-site business customers who cannot afford the expense of a Private Line, but still want a reliable and secure private network.”

He further explained, “MPLS can handle nearly any type of digital traffic including VoIP and TDM telephone, IP video, and packet data with prioritization.”

Backed by multiple Tier 1 providers, TouchTone offers QoS (Quality of Service) driven nationwide and international services with speeds ranging from 1.544Mbps to 10GB. There are no installation fees and managed Customer Premise Equipment is available through Standard Adtran and Cisco. The program delivers complete beginning to end design, procurement, integration, maintenance, and management of data networking equipment and applications.

About compensation, Kaplan added, “Our commission rates are among the highest in the industry. A two location MPLS network can pay agents up to \$7712.”

TouchTone also offers Enhanced MPLS, Ethernet, and Dedicated Internet services.

For additional information and program details, call TouchTone Agent Support at 1-800-900-5474.
