EVDO Service and 1XRTT Service is available today in various markets throughout the U.S. When outside of the EVDO Service coverage area, the EVDO Service will transfer to 1XRTT Service where 1XRTT Service is available. Please reference the EVDO Service and 1XRTT Service Map for coverage information on 1XRTT Service.

Wireless service is subject to network and transmission limitations, including cell site unavailability, particularly near boundaries and in remote areas. End User's equipment, weather, topography and other environmental considerations also affect service and service may vary significantly within buildings. With "all-digital" devices the End User can only make and receive calls when digital service is available. When digital service is not available, the device will not operate or be able to make 911 calls.
